## Natural fat loss

Body Sculpt Labs recently launched a new natural product called CLA Sculpt, which provides a unique combination of CLA and Green Tea extract to safely promote fat burning and toning. CLA is an essential fatty acid which targets areas of stored body fat and mobilises these stores so that the body can then burn the fat as a source of energy. Green Tea extract activates the body's fat-burning receptors thereby increasing the rate at which the stored fat is burnt for energy. Available from [www.bodysculptlabs.co.za](http://www.bodysculptlabs.co.za) at an RRP of R235.

## Van Huyssteen wins Xterra SA champs

Carla Van Huyssteen won the Totalsports Xterra South African Championship presented by Rehidrat® Sport in Grabouw on Sunday, 26 February 2012.

"Winning at Xterra Grabouw has been my goal for three years now. It truly is amazing to get the recognition for all the hard work that I've put into the sport. I think most supporters were hoping for a double win for SA today. This made crossing the finish line all the more sweet as everybody was so happy for me. I felt surprisingly good during the swim and just knew that I'd have a great race. The running route suited me perfectly. The climbs weren't too long, with every climb ... followed by nice

long single-track and downhill sections. The mountain bike discipline was technical with some serious downhills. All in all I had a great race and am really pleased with my performance on the day," says Van Huyssteen. Van Huyssteen's winning time was 2hrs 50min 28sec. Austrian Carina Wasle came in second, while Candice Davison finished third.
